subject **Invitation to the 3rd networking seminar on aviation and wind energy**

Dear Sir or Madam

We are looking forward to welcoming you to the 3rd networking seminar on aviation and wind energy on September 14th, 2018. In order to facilitate wind energy in Switzerland, it is skyguide's aim to further nurture the communication platform with all relevant stakeholders. This event shall enable conversations around bringing together industry best practices for the development of wind energy projects while providing safety in air traffic.

In this context we would like to share ideas and thoughts around the following topics:

- Wind energy deployment in Switzerland (Matthieu Ducret, Suisse Eole)
- Complex airspace around the aerodrome of Emmen (Pascal Berwert, skyguide)
- Evaluation and control of wind turbines in the vicinity of radars of a military airbase (Reto Pauli, Swiss Air Force)
- Measurable impact of wind turbines on radar and VOR (Dr. Jochen Bredemeyer, Flight Calibration Services,
- Leaflet on frequently asked questions (FOCA, skyguide)

Target audience Representatives of regulation bodies (Confederation, Cantons), the wind energy industry (associations, developers, consultants), air navigation service providers, airports, aerodromes, armed forces, defense procurement etc.

Venue Verwaltungszentrum UVEK, Papiermühle, 3063 Ittigen, Mühlestrasse 2

Schedule 9.30am to 4pm including sandwich lunch

Language English

Registration **By August 31st, 2018** (Name, Surname, Organization, Address, and Phone number to windturbines@skyguide.ch)

No participation fee

We are looking forward to welcoming you at the seminar.

Best regards

skyguide
